8 KEYS TO LEVERAGING
OPEN DATA

O — ONE HUNDRED TEN

ODX has received 110 respondents so far to the **Open Data 150 survey**. Our goal is one hundred fifty for Canada's 150th birthday.

D — DATA DISCOVERY

One of the biggest challenges companies face when considering the use of open data is how to discover it. ODX has a **Data Concierge** resource to support data users.

P — PORTALS

There are currently over 100 Provincial and Municipal Open Data Portals in Canada.

A — ANALYSIS

Platforms like OKFN, OpenRefine, Namara and ESRI prepare data sets for release and analysis.

E — ENABLER

A successful Open Data strategy requires that government departments engage with the process for data release like the **Guelph Civic Challenge**.

T — TWENTY TWO

ODX received 22 applicants for the first cohort of the **ODX Ventures** program. Due to the demand and quality of applications, ODX is funding 8 projects.

N — NATIONAL MANDATE

ODX has embarked on a Cross-Canada Tour to speak with Government officials and Open Data users. **Follow us on our tour.**

A — ACCESSIBLE DATA

The City of Edmonton, which ranked #1 in the Open Cities index has 1,309 open data sets.

The Federal Government has ~250,000 datasets in their data portal.

Created by **odX** *for International Open Data Day 2017.*
